

# Secure Mobile Gateway

## Secure and manage your mobile data

Spiralling data costs, uncontrolled usage and looming security risks can create major headaches for those responsible for maintaining mobile data fleets.

**Wandera offers enterprises a complete remedy, using a unique gateway architecture and proprietary technology to protect and enable corporate mobility.**

### Mobile threat defense

Wandera is the only technology to protect corporate mobile fleets at every level across both device and data gateway. Gain unparalleled visibility into security threats, from misconfigured devices and intrusive malware to malicious Wi-Fi spots and sophisticated web attacks.

- ✓ Vulnerability assessment
- ✓ App scans
- ✓ Device behavioral anomalies
- ✓ Network security
  - └ Infrastructure
  - └ Connection scans

*Detect threats, protect against attacks, isolate vulnerabilities*

### Compliance

Gain a real-time view into corporate data usage for both mobile network data and for Wi-Fi hotspot connections. Enterprises can use flexible controls to enforce acceptable usage policies, restrict inappropriate activity and improve employee productivity.

- ✓ Customizable policy management
- ✓ Real-time filtering and visibility
- ✓ Restrict undesirable behavior
- ✓ Block gambling or other inappropriate content

*Boost productivity, reduce legal risk, secure sensitive data*

### Data management

With corporate data pool requirements rapidly increasing, and bill shock a constant pain for mobility leaders, Wandera helps enterprises manage their data costs. Set intelligent capping policies, get customized alerts and take control of your organization's data consumption.

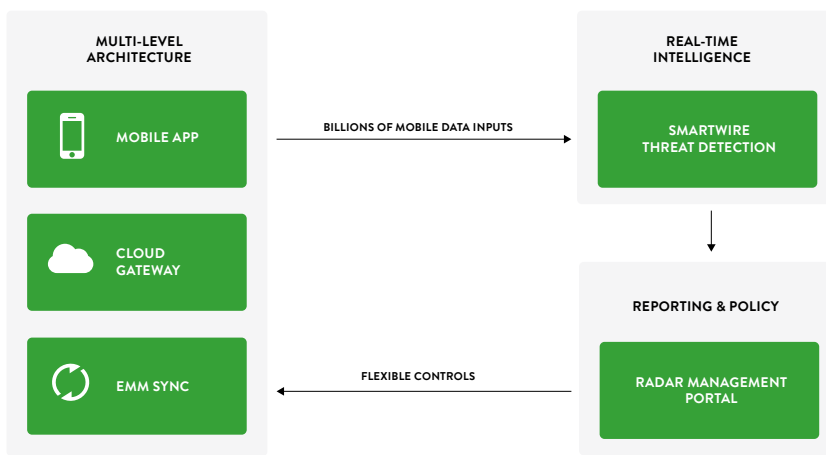

- ✓ Domestic usage policy controls
- ✓ Flexible data caps to the device level
- ✓ Configurable roaming policy enforcement
- ✓ Intelligent data compression

*Prevent bill shock, manage roaming activity, reduce data usage*

# Why Wandera?

## Powerful architecture

Wandera stands alone in offering security, compliance and data management in real-time, whether it be in the cloud, on the device or through integrated services such as EMM.

This means an unprecedented level of visibility into employee activity on corporate devices, and a set of data-level controls simply not possible with other types of technology.

## Industry recognized

With widespread customer and analyst recognition, Wandera stands out for its pioneering approach to mobile security and data management.

Wandera has been named a Cool Vendor by Gartner, and was acclaimed for its unmatched multi-level protection in the 2016 Market Guide for Mobile Threat Defense.

## A flexible ecosystem

With flexibility at its core, Wandera can be incorporated into existing infrastructures thanks to features like EMM Connect and its powerful SIEM integration.

Wandera offers deep integrations with leading EMM solutions, including AirWatch, MobileIron, Citrix, MaaS360 and Intune. For select partners, Wandera offers over-the-air (OTA) functionality, allowing for seamless, simple deployments at scale.

## WHY IT MATTERS

**3x** average cost of a mobile breach compared to cost of a MTD solution

**\$16M** annual cost of malware to the enterprise, per company

**67%** of firms have encountered a major mobile data breach

**680%** expected rise in enterprise 4G data use by 2018

**30%** typical data cost savings with Wandera in place

*"Wandera has paid for itself immediately and many times over. We are securing our mobile devices, ensuring we are compliance and accelerating onboard product sales"*

*Andrew Brandess  
Special project manager at Frontier Airlines*
